**Subject:** What I think.

Hello,

I think that as long as Microsoft continues in it's present form that there is NO competition in any software market that Microsoft enters. This is against all of our values as Americans. I think it is your duty to save us from this convicted criminal enterprise, and restore competitive balance. I also think an investigation should be started into Ashcrofts blatent selling out of America's interests in this case. Do as Judge Jackson said. BREAK UP MICROSOFT!!!!

Thank You,  
Wesley Watters
